

# ERC Trivia III

Idaho Falls Storehouse On Air Training

June 10, 2015

Welcome to tonight's training. We have done a couple of trivia-type sessions in the past. Tonight's is focused around the upcoming exercise and will test your knowledge of the event and hopefully help you to be better prepared.

*[Note: You can direct the questions to a certain region or demographic of operators or a free for all. Your choice.]*

If you would like to respond to a question, give your call sign phonetically and wait to be acknowledged before answering.

Idaho Falls North

**1. Let's begin with an easy one. What is the date and time of the upcoming ERC exercise?**

June 20, 2015, 9:00 am to 1:00 pm

~~**2. During an emergency, normal means of communication may become inoperative. Priesthood leaders should consider:**~~

- ~~• How to contact missionaries and members following a disaster.~~
- ~~• How to communicate the status of missionaries, members, buildings, and other necessary information to area leaders.~~
- ~~• Available communication personnel and equipment.~~

~~**3. During the exercise, what two things will the stakes be asked to do?**~~

- ~~• Contact as many families and missionaries as possible and report back the count to the Bishops' Storehouse~~
- ~~• Provide a count of emergency communicators and their equipment~~

Idaho Falls South

**4. During the exercise on the on June 20, from where will you be operating?**

Stake Center

Church building

[anywhere except from home]

Rexburg

**5. What amateur radio frequency should you monitor, at least as the exercise ramps up on Saturday morning?**

146.880 MHz repeater

Rigby

**6. During the exercise, if the repeater fails, what is the backup frequency?**

146.880 MHz simplex

**7. For the Rexburg Region: You are asked to assist a stake in the Rigby Region. In addition to the Storehouse frequency, what simplex frequency will the Rigby Region be monitoring?**

147.540 MHz simplex

**8. For the Idaho Falls South Region: You are asked to assist a stake in the Idaho Falls North region. In addition to the Storehouse frequency, what simplex frequency will the Idaho Falls North region be monitoring?**

147.450 MHz Simplex

This concludes tonight's training. Are there any other questions about the exercise or preparing for the exercise?

Thank you for participating tonight. This is N7TMS. Back to net control.
